# WILSON STUDYING NOTE FOR BRITAIN

test That Will Be Basis for Damage Claims.

MAY BE SENT THIS WEEK

roy, Oct. 11.-A draft of th note prepared at the State Department smission to Great Britain in pro test against British interference with American trade was submitted to President Wilson to-day by Secretary of State Lansing. That the note will be sent this week is now the expectation here.

It is thought that the President will find opportunity to go over the note and make such changes as he may think necessary within the next few days. Publication of the note as soon as it reaches the British Government is the present plan of the Administration, as been the case with practically all erespondence between the British and American Governments on this sub-

understood that the forthcoming note will not disclose the United States Government in any new position with reto the British practices during the ous reiteration of what has been already set forth as to the views of this evious protests to Great Britain chiefly in the fact that it has been written after many months of actual experience with British measures not acceptable to dovernment, whereas most of the communications have been proagainst acts contemplated under

To Ignore Packers' Cases,

The cases of the American packers which are now before the State Departwill not be included in the repre The principles involved in cases, those under which ins have a right to earry on trade, will be, however, thoroughly discussed in the new note, while the specific cases of the packers will be taken up with the British Governn subsequent and separate repre-
